

## BOARDING PRINCIPLES AND PRACTICE

---

The Royal Ballet School aims to provide a caring, supportive and positive environment where our students may flourish and fulfil their potential artistically, academically, socially and emotionally in all areas of their school life.

Our boarding environment provides a sense of a “home from home” where students can feel safe and secure and be treated and valued as individuals. We aim to promote the development of self-confidence, a sense of responsibility, mutual respect and tolerance both within school and beyond.

We value and encourage open and regular dialogue between staff, students and parents as we work towards a common goal.
